Let me know if you would like ASPECT to fly the KMCO site. We have been having pre-flight briefings at 08:00. I can let them know this will be a mixed mission flight, KMCO and ITC.

Hello Tim/Dave:

We had non-detects all night for VOCs. It maybe good to do one last run with ASPECT. I am not sure it would be necessary for TAGA since you can only really do BTEX but we could make a run with TAGA as well to finalize things.
